

Environmental Policy

Vibracoustics Ltd recognises its obligations to comply with environmental law and carry out its business in as environmentally sound manner as possible, in order to meet its responsibility to customers, shareholders, employees, neighbours, the natural environment and any other identified interested parties.

We will ensure that the impact of our operations on the environment is reduced to as low a level as is practically and economically feasible.

We are committed to the protection of the environment, which includes the prevention of pollution and any other specific commitment(s) relevant to our business context in which the Company operates.

We are committed to fulfil our identified compliance obligations and to satisfy applicable requirements.

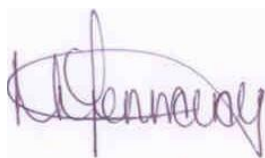

We operate a Management System that is described in our Management System Manual and which satisfies the requirement of ISO 14001:2015. The scope of our activities to which this Environmental Policy and the Management System applies is detailed in the Manual.

We are committed to the continual improvement of our Management System to enhance environmental performance.

We ensure that this Environmental Policy is communicated, understood and applied within the Company and is available to relevant interested parties. The Environmental Policy provides a framework for setting our Environmental objectives.

The Managing Director reviews this Environmental Policy and its practical application to ensure it remains adequate and current in line with applicable standards and requirements.
